Summary

Computer Engineering graduate with strong foundations in SQL, Python, PostgreSQL, and software operations. Experienced in workflow optimization, database handling, and frontend development. Passionate about Data Engineering, ETL pipelines, cloud technologies, and scalable data-driven systems. Seeking opportunities as a Data Engineer or Data Analyst.

Technical Skills

- **Programming:** Python, SQL, JavaScript
- **Databases:** PostgreSQL, MySQL
- **Data Engineering:** ETL Basics, Data Cleaning, REST APIs
- **Frontend:** React.js, HTML, CSS, Tailwind CSS
- **Tools:** Git, GitHub, AWS Basics

Experience

Software Support & Operations Engineer

Jul 2025 – Present

Dwarkadhish Consultancy and Advisory Services LLP

- Improved workflow efficiency through software operations and process optimization.
- Assisted with database-related operations and business process support.
- Supported payroll and sales tax compliance workflows for U.S. accounting operations.
- Collaborated with teams to troubleshoot and resolve operational issues.

Internships

React Developer Intern, Brands.live

Jan 2025 – Jun 2025

- Built reusable and responsive UI components using React.js and JavaScript.
- Improved frontend performance and component structuring practices.

Web Development Intern, CodSoft

Jun 2024 – Jul 2024

- Developed responsive web pages using HTML, CSS, and JavaScript.

Projects

SQL-Based Sales Analytics Project

SQL, PostgreSQL

- Analyzed structured datasets using SQL queries and reporting techniques.
- Used joins, aggregations, filtering, and grouping for business insights.

E-commerce Jewellery Web Application

React.js

- Developed responsive frontend with reusable React.js components.

Education

B.E. in Computer Engineering

2021 – 2025

Gujarat Technological University

CGPA: 9.1

Certifications

- Python Programming – Geekster
- AWS Cloud Foundations
- React & Node.js Workshop
